

## Editorial Statement

The idea of a special issue of *Journal of Portuguese Linguistics* on *Creole Languages and Portuguese* sprang from the workshop on the *Typology of Tone and Intonation*, the third held within the European Science Foundation Network *Tone and Intonation in Europe* (<http://www.let.kun.nl/tie/>). The editorial team of *Journal of Portuguese Linguistics* is grateful to the Network Coordination Committee – Carlos Gussenhoven (Chair), University of Nijmegen, The Netherlands; Amalia Arvaniti, University of California at San Diego, USA; Gorka Elordieta, Euskal Herriko Unibertsitatea, Spain; Sónia Frota, Universidade de Lisboa, Portugal; Esther Grabe, Oxford University, Great Britain; Aditi Lahiri, Universität Konstanz, Germany; Tomas Riad, Stockholms Universitet, Sweden; and Norval Smith, Universiteit van Amsterdam, The Netherlands – and to the European Science Foundation for supporting and sponsoring this issue of the Journal.

*The European Science Foundation (ESF) acts as a catalyst for the development of science by bringing together leading scientists and funding agencies to debate, plan and implement pan-European scientific and science policy initiatives. It is also responsible for the management of COST (European Cooperation in the field of Scientific and Technical Research).*

*ESF is the European association of 78 major national funding agencies devoted to scientific research in 30 countries. It represents all scientific disciplines: physical and engineering sciences, life, earth and environmental sciences, medical sciences, humanities and social sciences. The Foundation assists its Member Organisations in two main ways. It brings scientists together in its Scientific Forward Looks, Exploratory Workshops, Programmes, Networks, EURO-CORES, and ESF Research Conferences, to work on topics of common concern including Research Infrastructures. It also conducts*

*the joint studies of issues of strategic importance in European science policy and manages, on behalf of its Member Organisations, grant schemes, such as EURYI (European Young Investigator Awards).*

*It maintains close relations with other scientific institutions within and outside Europe. By its activities, the ESF adds value by cooperation and coordination across national frontiers and endeavours, offers expert scientific advice on strategic issues, and provides the European forum for science.*

*(ESF Remit)*

The *Journal of Portuguese Linguistics* is sponsored by the Departamento de Linguística Geral e Românica of the Universidade de Lisboa and FCT-Fundação para a Ciência e a Tecnologia.
